**Simon Tsang (SOCIF, Co-Founder & CTO)**

Simon is a 2018 graduate of Computer Engineering. He worked in a startup in San Francisco as an intern before and he was overwhelmed by the startup culture in the USA. After that, Simon founded SOCIF with another two co-founders (Jason and Gash) hoping to bring positive impact to the society by using technology. He is the CTO of SOCIF and mainly participates in the engineering development of the products. Simon believes the skillsets of an engineer can practically contribute the society.
